Engineering Manager with more than 20 years of experience in the IT Industry, I have

- Built teams from scratch, trained and managed them
- Architected & built **SaaS** products in domains such as **Banking**, **CI/CD Pipelines**, **DevOps** and **Lowcode**
- Built, managed or worked on **knowledge sharing platforms** in all my roles
- Managed & optimised cloud infrastructure across all 3 major cloud providers (**GCP, AWS, Azure**)
- Taught & trained peers & juniors in domain and technical skills
- Built in-house solutions on my own time which have helped improve productivity for my peers

I am looking for work that involves technical complexity and hands-on development. I can manage a team or can be an individual contributor as the job demands.

💼　Work Experience

2022 – 2024

Engineering Manager - JFrog

- Domains: CI/CD, Observability, Insights Dashboards, Cloud
- Technologies/Tools: NodeJS, Kubernetes, Helm, AWS, GCP, Azure, ElasticSearch, Coralogix, NewRelic, PostgreSQL
- Simultaneously managed teams working on three products - JFrog Insights, JFrog Observability & JFrog Pipelines
- Responsible for planning, design, development, deployment, monitoring cloud infrastructure & production support
- Worked with Senior Management on identifying, budgetting & implementing org-level OKRs
- Handled several intrusions on our SaaS infrastructure. Reduced cloud costs using better automation
- Initiatives: Automated identification & closure of 1000s of redundant security tickets. Created training modules to onboard developers. Reduced build time by 77% (from 90 to under 30 min)

2020 – 2022

Head of Engineering - Feldspar Technologies

- Domain: Low Code
- Technologies/Tools: JavaScript, NodeJS, Express, Vue, Vuetify, AWS
- Managed Recruitment, Strategy, Architecture, Design, Onboarding, Customer Management, & DevOps
- Owned DevOps & UI
- Using our lowcode SaaS platform **Atman**, we designed & built CRMs, HRMS, Social Media Sites, CMSs, Shopping Sites & Business Directories

2012 – 2020

Team Lead - CloudMunch & JFrog

- Domains: CI/CD, Insights
- Technologies/Tools: JavaScript, NodeJS, d3js, Vue, Kubernetes, Bash
- Owned UI for the CloudMunch product
- Managed **CI/CD** till the team grew & we could afford to hire dedicated experts

In 2016, CloudMunch was acquired by JFrog

- Managed UI for JFrog Insights (Migrated from Angular to Vue)
- Designed & developed installers for the JFrog Platform to install JFrog products such as Artifactory, Xray, Distribution & Insights

2003 – 2012

Technical Manager - Infosys

- Domain: Banking
- Technologies/Tools: JavaScript, Java, MySQL, PostgreSQL
- Worked on every aspect of Infosys's banking product: Finacle Including authentication, security, transaction integrity and UX
- Received 2 Infosys Excellence awards.
- Initiatives: Managed a team of volunteers to create a Technical Wiki which won awards for 6 consecutive years. Taught several batches of trainee engineers Software Development and Banking.

2002 – 2003

Technical Specialist - Dell

- Domain: Non IT. Technical support for Dell Computers
- Received several excellence awards & was made part of a team handling only high-risk customers
